Dear friends,

I know your inboxes have been filled with emails about the devastation in Haiti. Mine, too -- but I thought I'd dare to send a further email with information a new issue of InProv 2, the digital newsletter from Province II, that's entirely about Haiti.

InProv 2 provides a very fine overview, with relevant and helpful links. Those range from a YouTube video by the Reverend Frank Logue called 'Where is God in the Haitian Earthquake?' and service leaflet inserts prepared by Episcopal Relief and Development to information about donating and volunteering, as well as talking to children about disasters.

You can access the issue here:

or if that line breaks in your email, use this link:

All good wishes,
